## ABOUT US

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum.

# SPECIALITY LAMINATES

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s,

**CRACK RESISTANT**

Cracks can appear for reasons such as atmospheric pressure, humidity, seasonal changes and even jealous neighbours. Our laminates are resistant to all.

**RESISTANT TO SURFACE WEAR**

Our décor surfaces are as tough as they are good looking. They can resist gradual erosion caused by mechanical, physical, and even chemical actions.

**DIMENSIONAL STABILITY**

Suitable for any climate or environment, our high quality laminates can handle expansion and contraction quite easily.

**SCRATCH RESISTANT**

At NewMika, we don't mess around. Our surfaces can resist scratches caused by sharp objects that are harder than the laminate itself.

**STEAM RESISTANT**

With our superior resistance and retting, should things get steamy, at least they won't get sticky.

**DRY HEAT RESISTANT**

Worried about heat resistance? Don't sweat it. Our surfaces won't develop blisters even when hot objects are placed on it.

**STAIN RESISTANT**

From coffee and wine to turmeric and sauces, our laminates can resist stains and (to make matters better) are even easy to maintain.
